## Part 2 : PPD Impact on the Reform Process

NB: Following the different data collection methods, the evaluator needs to rate each step in terms of the level of influence, which the PPD had on the step being measured. This level of influence can be indexed on a scale from 0 to 3. This would mean that for each given reform and given step the following scores are possible.

0	The PPD has no impact on this step.
1	This step benefited from input from the PPD
2	The role of the PPD was crucial in the accelerating this step.
3	The PPD was solely responsible for this step.

PPD Evaluation Wheel Score (over 3)

	1. Diagnostic	2. Solution Design	3. Advocacy and Handover to Public Sector	4. Legislative / Executive Process	5. Implementation, M&E, Follow-up
REFORM 1:	0.0	0.0	0.0	0.0	0.0
REFORM 2:	0.0	0.0	0.0	0.0	0.0
REFORM 3:	0.0	0.0	0.0	0.0	0.0
REFORM 4:	0.0	0.0	0.0	0.0	0.0
<b>0.0</b>	-	-	-	-	-

	1. Diagnostic	2. Solution Design	3. Advocacy and Handover to Public Sector	4. Legislative / Executive Process	5. Implementation, M&E, Follow-up
<b>PS - Capacity</b>	* PS is able to identify the issue and its root causes * PS is able to articulate issue and arouse interest	* PS has capacity to research and analyze * PS is able to access necessary expertise	* PS is capable of preparing, present and advocate to Public Sector	* PS capacity to provide input to legislative/executive process	* PS capacity to monitor, measure and analyze the reform
<b>PS - Confidence</b>	* Confidence to share - trust in fellow PS	* PS is confident to present and support the issue * PS does not feel threatened by other PS and Government * Issue not to politically contentious	* PS is confident to engage in discussions with government officials at ministerial and cabinet levels	* PS is confident to engage in discussions with government officials at parliamentary level	* PS can access the reform without prejudice
<b>PS - Access</b>	* Channel exists to raise issue among PS * Mechanism exists for PS to achieve consensus	* Access to concerted solution design with Government	* PS has access to Government to comment, amend and initial draft laws	* PS has opportunity and access to Government to modify draft laws	* Government capacity and will to enforce the reform (e.g. no entrenched interests overturn)
<b>Gov- Capacity</b>	* Gov has access to relevant data and knowledge * Resources are available	* Gov has access to relevant expertise * Resources are available	* Gov capacity to engage on substance with the PS on the issues they forward	* Capacity and power to put the issue on the agenda and convince other agencies, parliament and political parties	* Capacity to coordinate with other agencies * Budgets are made available
<b>Gov- Willingness</b>	* Issue strongly affects the Government * PS lobbying has taken place	* Necessary internal Gov conferral has taken place	* Gov willingness to be accountable to PS on the issues they forward	* Gov willing to risk political capital * Lack of internal vested interests * Alignment between ministries, parliament and parties	* Relevant Ministry (staff) has incentives to implement
<b>Gov - Opportunity</b>	* Inputs from the PS are available	* Government has the opportunity to mobilize the administration to address the technical specificities of issues forwarded by PS	* Gov has mobilized the appropriate institutional structure to respond to PS on the issues they forwarded	* Sufficient coordination among Government entities * Proposal is consistent with legal constitutional demands	* Government opportunity to disseminate new implementation procedures to PS * Government opportunity to monitor and evaluate the implementation

NB: Following the different data collection methods, the evaluator needs to rate each step in terms of the level of influence, which the PPD had on the step being measured. This level of influence can be indexed on a scale from 0 to 3. This would mean that for each given reform and given step the following scores are possible.

0	The PPD has no impact on this step and pre-condition
1	The PPD contributed to this step and pre-condition
2	The PPD had a significant impact on this step and pre-condition
3	The PPD had a critical impact on this step and pre-condition
